

Thiago Sousa Lopes

PRODUCT DESIGNER & UX/UI DESIGN SPECIALIST

SUMMARY

As a highly experienced Senior Product Designer and UX/UI Specialist, I have worked with a diverse range of clients and users, including startups and huge and established corporations.

My expertise covers the entire product development process, from strategic planning through to hands-on coding (HTML/CSS).

With large experience in Agile and Lean methodologies, I can effectively dive into complex problems and deliver innovative solutions to clients.

SKILLS

- User Experience and Interaction Design, User Research & Strategy.
- User Interface and Graphic Design, Information Design, and Data Visualization.
- Responsive Design (HTML/CSS), Lean UX, Agile Methodologies, and Scrum.
- Communication, Collaboration, Empathy, Problem-solving, Leadership, and Adaptability.
- Figma (6+ years), InVision, Marvel, Photoshop/Illustrator (15+ years).

RELEVANT PROJECTS

Banking Application (Mobile)

Designed UX/UI and basic HTML/CSS for a mobile banking app with 200,000+ users, winning three social banking modernization awards.

AI-Driven Information System:

Designed the user experience and visual elements for a system that utilizes artificial intelligence to rank and collect relevant information for various clients.

Medical System for a Health Startup

Transformed the user interface for medical professionals at a health startup, leveraging big data and voice interfaces; enhanced patient care in hospitals by streamlining information retrieval and reducing data entry time by 40%.

UX/UI EXPERIENCES
